

Give your customers instant access to all of your offers in one place.

The CodeBroker MyOffers Digital Wallet enables you to deploy a fully-branded offer wallet across multiple digital channels, to give your customers instant access to all of your offers and deals in one convenient place.

Deliver coupons, offers, rewards, and more directly to your MyOffers Wallet, giving customers an easy way to organize and track all of your offers – and giving you the ability to send new, and update existing offers.

Get A Variety of Offers into Your Customers' Hands.

The CodeBroker MyOffers Wallet lets you deliver a broad range of content directly to your customers' phones to enhance customer satisfaction and increase shopping frequency and lifetime value.

Deliver an Omnichannel Digital Experience

Every consumer has his or her preferred way to receive offers, and the CodeBroker MyOffers Wallet gives you numerous ways to deliver offers to your customers. You can send offers directly to each customer's wallet and then send alerts and reminders about these new offers via multiple digital channels, such as text, in-app push, and email. To promote engagement and action, customers can choose the channels they wish to use to receive messages and access offers.

Many ways for customers to access MyOffers

- Text message
- Mobile app
- Email
- Mobile Wallet (Apple Wallet, Google Pay)
- Web

Enterprise-Class Features. Up-and Running Quickly and Affordably.

Improve engagement with your Mobile App

It's easy to integrate CodeBroker's MyOffers Wallet into your existing mobile app. Quickly give your app the ability to present offers and rewards, enable your customers to request on-demand offers and to search your available offers. Give yourself the ability to easily control and personalize what offers your customers see in your app. The MyOffers Wallet is a secure solution to enhance your mobile app engagement and which can be integrated in just a couple of days and requires no SDK.

The Ideal Offers Engine for Apple Wallet & Google Pay Users

Consumers love Apple Wallet and Google Pay, but they present limitations for marketers because consumers have complete control over what goes in their wallet.

CodeBroker removes this limitation because customers can add the MyOffers Wallet right into their Apple and Google wallets with just one click, for access to all your offers – and giving you unprecedented control to send new offers, remove offers, and update existing offers – for a powerful new world of promotional capabilities.

Add a Powerful New Dimension to Your Loyalty Program

Take your loyalty program to the next level by giving customers complete access to their rewards, offers, points balance, and more right from their MyOffers Wallet.

Mobile Loyalty Card - Give customers a way to display their loyalty barcode at any time.

Rewards Access - Make it easy for customers to quickly access and monitor their loyalty rewards.

Engagement - Notify customers when rewards are available. Update mobile loyalty cards in real-time and send notifications.

Contact CodeBroker today to learn how to put a branded MyOffers Wallet to work for your sales and marketing programs.
